

ENERGY PAINTINGS OF INDIA

ENERGY PAINTINGS OF INDIA (EPI)

Energy Paintings of India are meditative paintings that are filled with colours of joy. Prof Hermon Carduz paints the energy paintings of India with deep meditation and fills the canvas with positive energy. Energy Paintings of India is a blend of Positive Energy, Colours and Neurographic Art principles.

Energy Paintings of India with colors isolate you to a positive realm breaking the clutches of the negative force. It provides you with a deep inner journey helping you to architect your great future. The Energy Painting of India radiate colors of energy which helps you visualize your future goals. The installation of EPI in your home, campus or office helps you to be physically, mentally and spiritually strong and visualize your powerful future.

ENERGY PAINTINGS OF INDIA

Energy Paintings of India

Research and Development

Objective

Welcome to Leader's Choice Art Research and Development, where we aim to provide art that not only stimulates the senses but also soothes the neurons in the brain. Our objective is to showcase top-quality art pieces that promote relaxation, inspire creativity, and positively impact your mental health.

Research Areas

Our research areas at Leaders Choice Art Gallery focus on the powerful connection between art and the mind. Through our studies of the energy of colours, the stimulation of neurons, and the techniques of neurographic and mindful art, we have found new ways to manage stress and promote wellbeing. Our creation of art reflects our commitment to these research areas, inspiring and uplifting viewers who experience the transformative power of our pieces.

Outcome

The artwork is colourful filled with positive energy and is mindful soothing the brain.

Resources

Dr. Pavel Piskarev, Research on Neurographic Art.
